TO DEVELOP WATER ON THE AMERICAN DESERT.

Los Angeles, Cal., Dec. 5.—Because more than a score of skeletons, scattered along his line of travel, served as a grim signpost of danger and warning of the fate that might overtake him during a trip through the desert regions of California and Nevada, George W. Parsons, of this city, for eight years has been agitating the need of public protection for the daring prospectors and travelers who venture in these waste places.

This work has now taken concrete form in an effort on the part of the Los Angeles chamber of commerce to secure the aid of congress in the sum of \$10,000, to be expended under the direction of the secretary of the interior, for the purpose of locating and developing springs and water holes, and the erection of durable monuments near accustomed lines of travel. It is intended to cover the general area of the desert and arid lands of the United States, informing travelers as to the location and character of these sources of water supply. The state of California already has appropriated \$5000 for this work and more than 300 iron guide posts with directing arms have been erected within its borders. The proposed national legislation has been embodied in a bill which California congressmen will be asked to introduce.

WORKMAN LOSES FINGERS; DIPHTHERIA CASES DEVELOP

Colonia, Dublin, Mex., Dec. 5.—While Milton Ray was at work in the furniture shop belonging to Gaskel Romney, he accidentally got two of his fingers sawed off at the middle joints. He was immediately taken over to Casas Grandes and had his hand dressed by Dr. Roberts.

Three new cases of diphtheria have developed within the last week, a little daughter of Morris Mickelson, one of Simon Paez, and a little son of Erastus Jacobson. The little girl of Mr. Mickelson has a very violent case. The little daughter of James Young and all of the other cases are improving nicely. No Americans have yet died with the disease.

The pump men have met with another difficulty. This time they find that their little engine will not generate power enough to run their pump, so they went to El Paso for another engine. They hope to have everything in running order during the week.

A new meat market has opened in Colonia Dublin. It has been a long time since meat has been sold in Dublin. The people here have gone to the station (Nueva Casas Grandes) for all their meat.

Wonderful Story of a Woman About Great a Kidney Remedy.

About one year ago I was taken to my bed with kidney trouble and remained for weeks an invalid. At times I suffered so badly and the pain was so intense, I had to scream. I gradually became worse and everything was done for me that was possible, but I did not get any better. I became so bad I could not sit up in bed and two doctors were called in, and after treating me for some time without helping me any, told me my only hope was to have an operation. An operation was performed, but soon after I became worse than ever and thought that the rest of my days would be spent in bed. Friends whom my husband had written to in Portsmouth, telling of my condition, advised him to get me Dr. Kilmer's Swamp-Root. He bought one bottle and in two weeks I was able to leave the bed. I took one more bottle and was entirely cured and able to do my work around the house and have enjoyed good health to this day. Friends who knew of my condition, consider my cure remarkable, and I never hesitate to recommend it.

You have permission to publish as you desire.

Yours very truly,

TROUBLE ENDS AT THE HIGH SCHOOL

There is rejoicing at the High school. The youngsters who stayed away from classes to celebrate a football victory need not remain in after hours any longer. Some of them had to make a trip to school Saturday to complete their punishment, but now it is all over—the boys have promised to be good, never to do it again, and it is all off.

But there is still one thing that weighs heavily on the youthful hearts. Outside athletics are banned unless the school board considers the petition presented by the students, and restores athletics. Doubt is expressed, however, that the board will do this, and therefore there are still a few tears left.

The girls who never resort to rowdiness in their games, are to be permitted to play basketball with outside teams. The first game, shortly after the holidays, will be between the local High school team and the five from the A. & M. college at Mesilla Park. A game will also be played with the New Mexico university, though this date has not been definitely set. The Albuquerque team is to make a long tour, El Paso being included in the itinerary.

On February 4, the Bisbee High school team will come to El Paso, and on February 18, the local girls will go to Douglas to play the High school team of that city.

The El Paso team is said to be even stronger than last year.

MRS. EDDY DIES IN BOSTON HOME

(Continued From Page One.)

ception of a few routine matters, the actual direction of the church work was relinquished to a great degree by Mrs. Eddy some years before her death, although she continued to keep in close touch with those to whom she had entrusted the work and had a clear understanding of how it was being performed.

The notice, read at the morning service of the mother church, was repeated at the evening service to an unusually large congregation and also was read at many other Christian Science churches in this section of the country.

The farm upon which Mrs. Eddy was born July 16, 1821, in the neighboring town of Bow, is a short distance from the Concord, N. H., line, so that many of her childhood days were spent in Concord and she occasionally attended the Old North Congregational church. The house in which she was born was burned in April, 1910.

Mrs. Eddy first took up her residence in Concord in 1889, living on North State street until 1892, when she purchased between the city proper and St. Paul's school.

She made many changes and improvements on her property and lived there until her departure to live in the beautiful residence prepared for her at Chestnut Hill, Boston suburb.

Noted Eddy Suit.

Toward the last part of her residence at Pleasant View Mrs. Eddy almost entirely withdrew from public appearances save for her daily drives. This gave rise to many rumors as to her condition and surroundings, and several times reports of death gained circulation. Partly as a result of an investigation to disprove the rumors, suit was brought on March 1, 1907, in the name of Mrs. Eddy by "her next friends," her son, George W. Glover, of Lead, S. D., whom she had not seen for a number of years; his daughter, Mary Baker Glover, and George W. Baker, a nephew of Mrs. Eddy, against Calvin A. Frye and nine others who were alleged to possess a control over Mrs. Eddy and her property of which they were making undue use. Subsequently E. J. Foster, an adopted

son of Mrs. Eddy, and Frederick W. Baker, another relative, joined the "next friends."

William E. Chandler, former secretary of the navy, was their principal counsel, while Gen. Frank S. Streeter, of this city, led the defense.

The case came first under the jurisdiction of judge Robert McChamberlain, of superior court, and was by him referred to three masters, judge Aldrich, of the United States court, Dr. Geo. F. Jolly of Boston, and former congressman H. W. Parks, of Claremont.

After an extended hearing they called upon and interviewed Mrs. Eddy, at Pleasant View. Shortly afterward, on August 21, 1907, counsel for the "next friends" announced the withdrawal of the suit.

EL PASO MAN'S MOTHER DIES IN SAN ANTONIO.
San Antonio, Texas, Dec. 5.—One of the oldest English-speaking inhabitants of San Antonio passed away in the death of Mrs. Jane Johnson, mother of W. A. Johnson, of El Paso, which occurred here Saturday.

Mrs. Johnson, who attained the age of 86 years, had lived in San Antonio continuously for the past 60 years, coming here when she was a young woman. Shortly after her arrival she was wedded to W. B. Johnson, who died several years ago. The wedding ceremony took place in a tent.

During her early residence here San Antonio was a frontier town, inhabited mostly by Mexicans and Indians, and her life is a narrative filled with hardships, such as occurred to all pioneers.

Besides her son, W. A. Johnson, of El Paso, surviving her are two daughters, Mrs. M. M. Mooney and Mrs. Edward R. Dillon, both of San Antonio; 15 grandchildren and 18 great-grandchildren.
